 COMPONENTS

REQUEST FOR RECONSIDERATION

Mail Stop AP
 Commissioner for Patents
 P. O. Box 1450
 Alexandria, VA 22313-1450

Dear Sir:

This paper is responsive to the Final Office Action mailed on July 13, 2004.
 Applicant respectfully requests reconsideration of this application.

Applicant respectfully traverses the rejection under 35 U.S.C. §112. The claims are clearly supported by the specification. The specification clearly indicates that the microprocessor utilizes the correction factor in subsequent signal transmissions. Having the claims limited to "all" subsequent transmissions fits within the scope of the disclosure, and, therefore, is enabled. Just because a claim limitation is more narrow than a description within a specification does not mean that it is not enabled. The written description clearly supports the claims.
